

## Education

- **FULL STACK DEVELOPMENT** | CodeYourFuture | April 2022 - March 2023
  - 11-month program of Software Development using PERN Stack (PostgreSQL, Express.js, React and Node.js) and vanilla JavaScript, HTML and CSS.
- **BACHELOR'S DEGREE IN ELECTRONICS ENGINEERING** | Coventry University | September 2016 - May 2020
- **BTEC ENGINEERING EXTENDED DIPLOMA** | Sandwell College | September 2013 - May 2016

## Technical Skills

- **Languages:** Javascript, HTML, CSS, C#.
- **Frameworks and Libraries:** Node.js, Express.js, React.js, Redux and database frameworks (PostgreSQL and MongoDB).
- **Tools:** Git, SQL, Docker and Linux.
- **Testing:** Cypress and JEST.

## Employment

May 2023 – Present

**FULL-STACK DEVELOPER**, CodeYourFuture

- Developing and maintaining 4 software products: Dashboard (CRM), CYF Forms (Registration), Intro To Digital - ITD (Application Process), CYF API (Integration).
- Collaborating through pair programming, reviewing, testing, and implementing solutions.
- Refining and implementing user stories, ensuring adherence to requirements and quality standards across sprints.

Dec 2022 – April 2023

**QUALITY CONTROL SUPERVISOR**, Trigo Group

- Reduced communication delays by 50% through protocol improvements.
- Created and updated work instructions, which led to efficient and prompt job execution.
- Enhanced employee performance by offering support and development sessions.

Oct 2019 – April 2022

**TEAM SUPERVISOR**, Fenous Grill

- Managed staff schedules, and optimised order communication channels, reducing processing time by 20% and boosting customer satisfaction reviews by 15%.

## Projects

**SAMA E-Commerce website**

<https://the-shop-omw9.onrender.com/>

- The Website is created with the MERN stack which ensures a seamless and responsive user experience, with a dynamic front-end and a robust back-end.
- State Management with Redux, enhancing the performance of the application and providing a smooth experience for users navigating through the platform.
- I used MongoDB to ensure adaptable and scalable data storage. Its NoSQL nature allows the website to stay agile and responsive to evolving user needs in the future.

**STUDY BUDDIES Website**

<https://starter-kit-0qci.onrender.com/>

- Developed a website connecting 90% of CodeYourFuture students based on availability.
- Implemented a fully functional React Front-end (HTML, CSS, JavaScript) and created the Back-End with Node.js and Express. Constructed API endpoints and SQL tables for seamless integration.
- Collaborated on weekly sprints and daily standups for testing, implementation, and integration.
